Reflections on 2017: A Message from CEO Dave Ross

Thank you for making 2017 a remarkable year for The Task Force for Global Health. Your support helped...
Global Health. Your support helped advance our mission to end diseases that affect people living in poverty and strengthen systems to protect and promote health around the world.

Staff Perspectives on 2017

In this short video, two Task Force staff members reflect on our work this year to improve U.S. public health response to disease outbreaks and eliminate trachoma as a public health problem globally. They also look ahead at our prospects in 2018.
