## Clinical Drug Trials Offer Hope of Relief to Patients with Stigmatizing Lymphedema

For people with disfiguring lymphedema, the hope that a drug may help reduce inflammation and swelling -- potentially returning to them a life of dignity -- is a huge cause for celebration. [More](#)

### Preventing Blindness in Developing Countries

Carla Johnson recently rediscovered a photo of herself. In it, she was six years old, standing in front of a poster she had created for kindergarten class. The poster was filled with hand-drawn renderings of a train, a ship, and an airplane. Little did she know then that transportation and logistics would form the framework of her future career. [More](#)

### Behind the Faces

Last year, we saw immense strides being made to control and eliminate diseases that affect the poorest amongst us. Our 2018 annual report chronicles the stories of some of those who support us in these efforts. [More](#)
